

Together, Anything Is Possible

Scripps Mercy Hospital

‘After falling down a flight of stairs while intoxicated, a middle-aged man with a history of drug and alcohol dependence was brought into the ED. The team of nurses and physicians treating him determined that he needed surgery to repair some broken bones. Typically homeless patients have no place to recover, but a new partnership between Scripps Mercy and Catholic Charities allowed our case managers to offer this man a chance to recover in a safe environment. As a result, he was able to make a fresh start. He has fully recovered from his injuries, has a job and is taking classes at San Diego City College. Programs like this one help us offer people a better choice when they need it the most.’
